

AUDITOR'S STATEMENT ON THE CORPORATE GOVERNANCE REPORT

To the Annual General Meeting of Concordia Maritime AB (publ). Corp. ID 556068-5819

The Board is responsible for the 2014 Corporate Governance Report on pages 67–76, and for ensuring that it is prepared in accordance with the Annual Accounts Act.

I have read the corporate governance report and based on this reading and my knowledge of the Company and Group, I believe that I have sufficient grounds for

my opinion expressed below. This means that my statutory review of the Corporate Governance Report has another focus and is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing practices in Sweden.

In my view, a corporate governance report has been prepared and all the statutory information it contains is consistent with the annual accounts and consolidated accounts.

Gothenburg, 2 April 2015

Jan Malm
Authorised Public Accountant

GOVERNANCE OF COMPANIES AND OPERATIONS

Concordia Maritime applies the Swedish Corporate Governance Code. This Corporate Governance Report has been prepared as part of the application of the Code. In addition to the description of corporate governance, there is also a summary description of how the operational control of day-to-day activities is carried out. The report has been reviewed by the Company's auditors and there are no derogations from the code.

THE PARENT COMPANY in the Concordia Maritime Group is the Swedish public limited company Concordia Maritime AB (publ), corp. ID 556068-5819. In addition to the Parent Company, the Group consists of 17 wholly or partly owned subsidiaries.

The registered office is in Gothenburg. The postal address of the Group's head office is Concordia Maritime AB, SE-405 19, Gothenburg, Sweden. The governance of Concordia Maritime is based on the Swedish Companies Act and Nasdaq Stockholm's

regulations, including the Swedish Corporate Governance Code ("the Code") and other applicable Swedish and foreign laws and regulations.

Concordia Maritime applies the Code and the Annual Accounts Act, and this Corporate Governance Report has been prepared as part of the application of the Code. The English version of the Swedish Corporate Governance Code is available at www.corporategovernanceboard.se.

Certain information required under section 6, Chapter 6, of the Swedish Annual Accounts Act can be found in the Board of Directors' Report. Information at www.concordiamaritime.com includes:

- More detailed information on internal control documents, e.g. the articles of association.
- Information from Concordia Maritime's annual general meetings, notices, minutes and financial reports.

How does the Concordia Maritime–Stena Sphere cooperation work in practice?

The close cooperation between Concordia Maritime and the related companies within the Stena Sphere provides access to world-leading expertise in all areas of shipping – from ship-building and technical operation to manning, chartering and commercial operation. It also creates the conditions for a cost-effective internal organisation.

It is management's belief that this cooperation is one of Concordia Maritime's main strengths, even though the relationship is associated with some risk, as services are purchased from a small number of suppliers.

Ever since Concordia Maritime was established, there has been an agreement that regulates the relationship between the companies in terms of new business. Under the terms of this agreement, Concordia Maritime has the right to opt for 0, 50 or 100 percent participation in each new transaction that Stena Bulk develops.

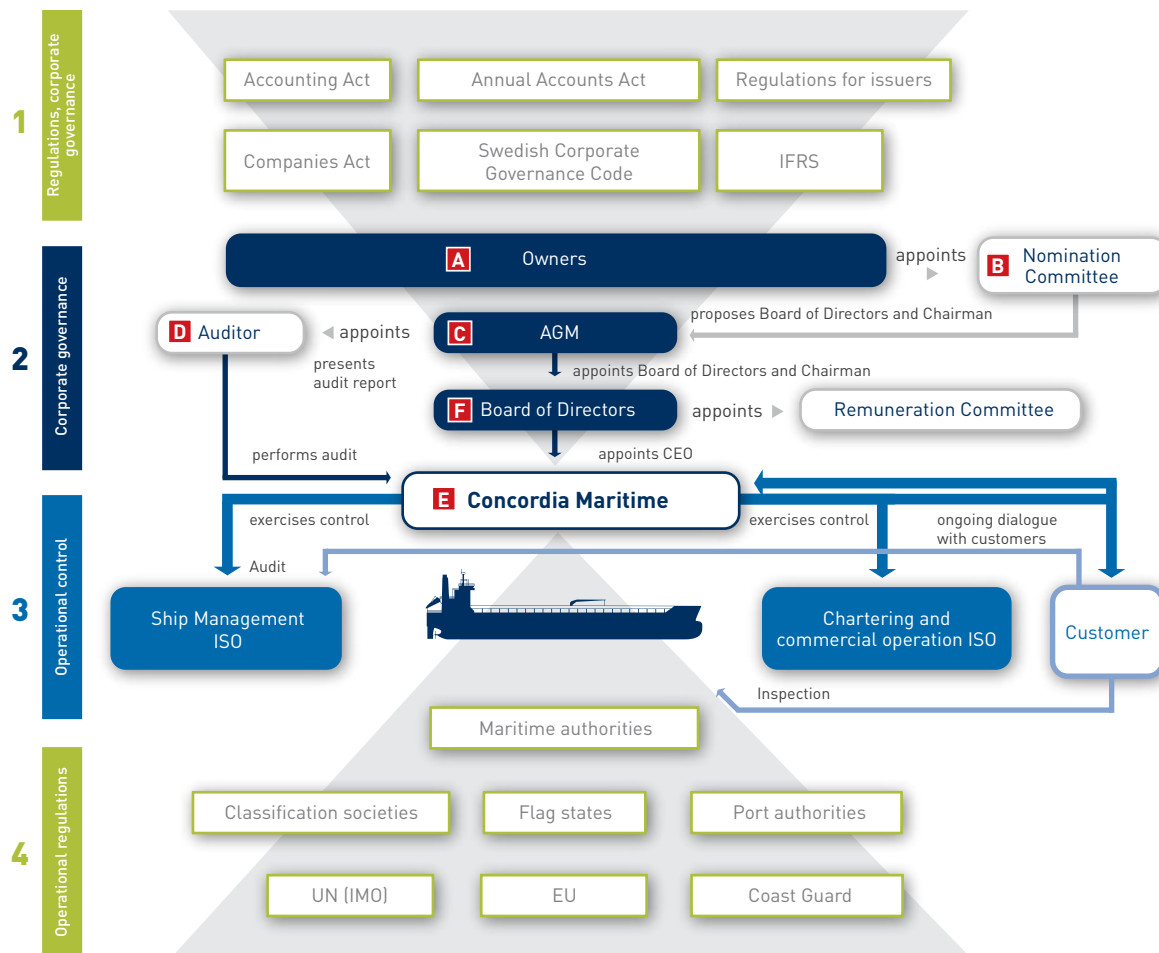

Some vessels are chartered through Stena Weco, of which Stena Bulk is a joint owner (50 percent) and the CEO of Concordia Maritime is a Board member. The agreement with Stena Weco is basically the same, with the exception of transactions under one year.

Concordia Maritime purchases services from Stena Sphere companies in the following areas:

- Vessel charter: Stena Bulk and Stena Weco
- Commercial operation (and administration): Stena Bulk and Stena Weco
- Operation and manning of the Group's vessels: Northern Marine Management
- Technical Support: Stena Teknik
- Purchases of bunker oil: Stena Bulk
- Insurance: Stena Rederi AB
- Office rent and office services: Stena Rederi AB

All related party transactions are conducted on commercial terms and at market-related prices. The agreements between the parties are reviewed annually. Alongside the agreements, there is a policy document which regulates areas such as practical management of business opportunities, information management and logging procedures.

PRINCIPLES OF CORPORATE GOVERNANCE

The corporate governance and control of our operations can be described from several perspectives.

1 As a public and listed Swedish company, Concordia Maritime is governed by a number of laws and regulations. Among the most important of these are the Swedish Companies Act, the Swedish Annual Accounts Act, International Financial Reporting Standards, Nasdaq Stockholm's listing agreement, rules for issuers and the Swedish Corporate Governance Code.

2 From an ownership perspective, business operations are governed by a Board of directors elected by the shareholders. The Board formulates the frameworks for the operations, appoints the CEO and exercises control over the Company's management. The Board has the services of a

shareholder-elected auditor, whose job is to provide audit reports on the annual accounts and consolidated accounts for Concordia Maritime AB (publ) and administration of the Company by the Board and CEO.

3 The day-to-day operations are ultimately controlled by the customers' demands for efficiency and reliability. We have chosen a strategy that involves collaboration with a number of subcontractors in areas which include commercial operation and ship management. These collaborations are covered by agreements and policies, as well as mutual trust and full transparency. There is an extensive exchange of

information between the parties and here, too, the control and reporting systems are well developed.

4 In addition to these legal control mechanisms, the business activities are subject to and governed by a number of industry-specific regulations. The most important of these are the UN, EU and US regulations related to shipping and trade in oil and petroleum products, and oil companies' own ship inspections (vetting). There are also regulations related to individual flag states, classification societies and national maritime authorities. All these bodies exercise continuous control of the business down to ship level.

A Voting rights

The share capital consists of class A shares and class B shares. All shares carry equal entitlement to a share of the Company's assets, earnings and dividends. The par value is SEK 8 per share. Class A shares carry ten votes per share and class B shares one vote per share. At the end of the year, all class A shares were controlled by the Stena Sphere. At 31 December 2014, share capital amounted to SEK 381.8 million, divided into 47.73 million shares, of which 43.73 million were B shares. The total number of votes was 83.73 million.

B Nomination process

The nomination process for the election of Board members includes appointing a nomination committee consisting of three members. The members shall comprise the Deputy Chairman and one representative from each of the two largest shareholders (in terms of voting power), provided they desire representation on the committee.

The composition of the nomination committee is based on shareholder statistics as at the last banking day of August in the year prior to the meeting. The names of representatives on the nomination committee and the shareholders they represent shall be announced on the website immediately after their appointment, but no later than six months before the annual general meeting.

If the structure of major shareholders should change during the nomination process, the composition of the nomination committee may be changed to reflect this.

Shareholders wishing to submit proposals to the nomination committee are able to do so via arsstamma@concordiamaritime.com.

The guidelines issued to the largest owners regarding their choice of representatives state that the individual in question must have knowledge and experience relevant to Concordia Maritime. The rules on the independence of board members contained in the Swedish Corporate Governance Code are observed.

The nomination committee's tasks include submitting proposals to the next AGM concerning the following areas:

- Chairman of the meeting
- Board members
- Chairman of the Board
- Remuneration of each Board member
- Remuneration for committee work
- Nomination committee for the following year

The nomination committee's proposals and a report on its own work shall be published no later than the date of the notice convening the meeting. Shareholders are given the opportunity to submit nomination proposals to the nomination committee.

C Shareholders' meeting

The general meeting of shareholders is the highest decision-making body at Concordia Maritime. Participation in decision-making, requires the shareholder's presence at the meeting, either in person or through a proxy. In addition, shareholders must be registered in their own name in the share register by a specified date prior to the meeting and must provide notice of participation in the manner prescribed.

Resolutions at the meeting are normally adopted on the basis of a simple majority. However, for certain matters, the Swedish Companies Act stipulates that resolutions must be approved by a larger proportion of the votes cast and shares represented at the meeting.

The Annual General Meeting is held in the Gothenburg region in the second quarter of each year. The meeting decides on matters concerning adoption of the annual report, dividends, remuneration of the Board and auditors, election of Board members and, when necessary, auditors, guidelines on remuneration of Group management as well as other important business. Individual shareholders wishing to have business considered at the AGM can normally request this, in good time before the meeting, via arsstamma@concordiamaritime.com.

An extraordinary general meeting may be held if the Board considers this necessary or if the Company's auditors or shareholders owning at least 10 percent of the shares so request.

D Auditor

The auditor provides an audit report on the annual accounts and consolidated accounts for Concordia Maritime AB (publ), the administration of the Board and the CEO and the annual accounts for other subsidiaries.

The audit is conducted in accordance with the Swedish Companies Act and International Standards on Auditing (ISAs) issued by the International Federation of Accountants (IFAC). The auditing of annual financial statements for legal entities outside Sweden is conducted in accordance with laws and other regulations in each

country and in accordance with IFAC's generally accepted auditing standards on providing audit reports for legal entities.

An auditor is proposed by the nomination committee and elected by the AGM for a period of one year. At the 2014 AGM, Jan Malm of KPMG was elected as the Company's external auditor until the 2015 meeting.

The auditor's fees are charged on a current account basis. In 2014, KPMG received fees totalling SEK 2.3 million.

E Group

Management and corporate structure

The Group comprises the Parent Company Concordia Maritime AB (publ) and a number of Group companies, which ultimately report to the CEO. The Parent Company's own organisation consists solely of company management and administration. Other functions are purchased. At the end of 2014, the total number of persons employed through the Group was 410, 404 of whom were seagoing. Only the six shore-based employees are formally employed by Concordia Maritime.

CEO and Group management

In addition to the CEO, Group management consists of the CFO and general managers of the subsidiaries. The CEO is appointed by and receives instructions from the Board.

The CEO is responsible for the day-to-day management of the Company in accordance with the Board's guidelines and instructions. The CEO also produces information and

decision-support material prior to Board meetings and attends the meetings in a reporting capacity.

The CEO is also responsible for communication and quality assurance of contact with the Company's cooperation partners.

Remuneration of Group management

We endeavour to offer total remuneration that is both fair and competitive. All employees receive remuneration in the form of fixed salary and the opportunity to earn a bonus. Guidelines on remuneration of Group management are adopted by the annual general meeting.

Remuneration of the CEO is thereafter determined by the remuneration committee. Remuneration of other senior executives is prepared and decided on by the CEO. For further information on remuneration, long-term incentive programs and pension plans, see note 4 in the financial report.

F The Board

Tasks of the Board

The Board's main task is to manage the Group's affairs in a manner that creates the optimum conditions for a good long-term return on capital. The Board's work is mainly regulated by the Swedish Companies Act, the Company's articles of association, the Code and the rules of procedure established by the Board for its work.

The Board makes decisions on matters concerning the Group's overall objectives, strategic direction and major policies, as well as important issues related to financing, investments, acquisitions and disposals. The Board monitors and deals with follow-up and control of the activities of the Group, the Group's communication and organisational matters, including evaluation of operational management. The Board's responsibility includes appointing and, where appropriate, dismissing the Company's CEO. The Board also has overall responsibility for establishing effective systems for internal control and risk management.

Rules of procedure and Board meetings

Every year, the Board adopts rules of procedure for its work. These rules of procedure are revised as needed. The rules of procedure contain a description of the Chairman's special role and tasks, and the areas of responsibility for the Board. According to the rules of procedure, the Chairman shall ensure that the Board's work is carried out efficiently and that the Board performs its tasks. The Chairman shall also organise and distribute the Board's work, ensure that the Board's decisions are implemented effectively and that the Board makes an annual evaluation of its own work.

The rules of procedure also contain detailed instructions to the CEO and other corporate functions about which matters require the Board's approval. In particular, the instructions specify the maximum amounts that different decision-making bodies within the Group are authorised to approve with regard to credit, investments and other expenditure.

The rules of procedure stipulate that the statutory Board meeting shall be held immediately after the AGM. Decisions at this meeting include the election of the Deputy Chairman and who shall have signatory power for Concordia Maritime. In addition to the statutory meeting, the Board normally holds six regular meetings during the year. Four of these meetings are held in conjunction with the publication of the Group's annual and interim reports. The meetings are usually held in Gothenburg. Additional meetings, including conference calls, are held as required.

Quality assurance in financial reporting

Concordia Maritime is a company with a limited number of customers and a limited number of employees. The Company does not have a specific function for internal controls as there are relatively few transactions on an annual basis. The small number of transactions also makes financial reporting in the Company relatively easy to verify.

The President is ultimately responsible for ensuring the satisfactory functioning of internal controls. However, day-to-day work is delegated to the business administration and finance function.

The rules of procedure established by the Board each year include detailed instructions on which financial reports and other financial information is to be submitted to the Board. In addition to interim and annual reports, other financial information relating to the Company and business is also examined and evaluated on an ongoing basis.

Control environment

The core of the internal control over financial reporting is based on the Group's directives, guidelines and instructions, and on the structure of responsibility and authority that has been adapted to the Group's organisation in order to create and maintain a satisfactory control environment.

The principles for internal controls and the directives and guidelines for financial reporting are contained in the Group's financial policy.

A fundamental component of our control environment is the corporate culture that is established in the Group and in which managers and employees operate. We work actively on communication and education with regard to the values described in an internal joint document which binds together the business area and is an important part of the common culture.

Risk assessment

Risks associated with financial reporting are evaluated and monitored by the Board as a whole. There is no separate audit committee; instead, audit matters are dealt with by the full Board. Prior to examining interim and annual reports, Board members have access to relevant documentation well in advance of publication and the Board meeting preceding publication. The reports are then discussed in detail at the Board meeting. The CFO acts as rapporteur of the Group's results and financial position at the Board meeting and is, of course, available for any questions in the days before the meeting.

The Board also reviews the most important accounting principles applied in the Group with respect to financial reporting, as well as significant changes to these principles. The external auditors report to the Board as necessary and at least once a year.

Financial reporting and disclosures

Concordia Maritime's procedures and systems for external communication are aimed at providing the market with relevant, reliable, accurate and timely information on the Group's development and financial position. We have an information policy that meets the requirements for a listed company. Financial information is provided regularly in the form of:

- Interim reports
- Annual reports
- Press releases on news that could affect the share price
- High availability to all stakeholders via telephone and mail.
- Meetings with financial analysts and investors
- All reports and press releases are published on the Company website www.concordiamaritime.com.

Evaluation of the Board's work

Under the leadership of the Deputy Chairman, the Board conducts an annual evaluation of its work. The evaluation covers working methods, the working climate, the direction of the Board's work and access to, and the need for, special competence on the Board. The evaluation is used as an aid in developing the work of the Board and also acts as support for the nomination committee's work.

Remuneration committee

The Board has a remuneration committee, the main task of which is to propose principles for remuneration of the CEO. The committee makes proposals on remuneration guidelines relating to:

- Targets and rationale for calculating variable pay
- The relationship between fixed and variable pay
- Changes in fixed or variable pay
- Criteria for evaluation of variable pay, long-term incentives, pensions and other benefits

The Committee also decides on salary and other terms of employment for the CEO. The Committee consisted of the Chairman of the Board Carl-Johan Hagman and Board member Helena Levander during the year. The Committee met on two occasions in 2014.

STENA SUPREMI

CORPORATE GOVERNANCE IN 2014

The work of the Board during the year

The Board held five ordinary meetings and one statutory meeting during the year. All meetings except one were held in the Gothenburg area. At ordinary Board meetings, the CFO gives an account of the Group's results and financial position, including the prospects for the following quarters. The CEO deals with market situations, vessel employment, business plans, investments, the establishment of new operations, and acquisitions and disposals. The Company's auditor attended the meeting in February 2015, at which the year-end accounts for 2014 were approved.

All the meetings during the year followed an approved agenda. The agenda and documentation for each agenda item were sent to Board members one week before the meetings. Karl-Magnus Sjölin, former CFO at Stena Sessan, was the secretary at all the Board meetings. Significant business during the year included strategy, market assessments and financial risks.

Independence

In terms of independence, the Board of Directors is considered to be in compliance with Stock Exchange regulations and the requirements of the Code. Prior to the 2014 annual general meeting, all meeting-elected Board members apart from Dan Sten Olsson and Carl-Johan Hagman were assessed by the nomination committee as independent of both the major owners of the Company and its executive management.

Carl-Johan Hagman is not considered independent of Concordia Maritime's major owners, as he has a managerial function in Stena Sphere. Dan Sten Olsson is not considered independent of Concordia Maritime's major owners because of his ownership position in Stena Sessan Rederi AB, which owns approx. 52 percent of Concordia Maritime's capital and 73 percent of the total voting power.

2014 Annual General Meeting

The Annual General Meeting was held on 29 April 2014. The meeting was attended by 95 shareholders, in person or through a proxy, representing 77 percent of the votes. All meeting-elected Board members were present. Also present were the Company's auditor and members of the nomination committee.

The meeting's main decisions were as follows:

- Adoption of the Board's proposal that no dividend be paid for 2013.
- Payment of annual fees to the Board of Directors (excluding travel expenses)

were set at SEK 1,925,000, distributed as follows: SEK 400,000 each to the Chairman and Deputy Chairman and SEK 225,000 to each of the other Board members who are not employees of the Group. The meeting also adopted auditors' remuneration for reasonable costs, to be paid against invoice based on actual time spent on carrying out their assignments.

- Principles for remuneration and terms of employment for the CEO and other senior executives.
- Procedures for the appointment of the nomination committee and its work.

Board meetings 2014

20 February	Year-end
29 April	Interim Report Statutory Board meeting
13 August	Interim Report
12 November	Interim Report
9 December	Budget

Nomination committee

Prior to the 2015 meeting, the nomination committee consists of Stefan Brocker (Deputy Chairman of Concordia Maritime), Martin Svalstedt (Stena Sessan Rederi AB) and Arne Lööv (Fjärde AP-fonden), representing about 76 percent of shareholders' votes. The composition of the committee was announced on Concordia Maritime's website on 28 October 2014. The nomination committee had two meetings and a number of telephone contacts in 2014.

Ola Helgesson new CFO

Ola Helgesson took over as the new CFO of Concordia Maritime in October 2014. Ola is a graduate economist with extensive experience from several areas of economics and finance. His most recent position was Group CFO at Stena Line. Previous experience includes positions as CFO at Transatlantic and Hemköpskedjan and Financial Manager at Port of Gothenburg.

OPERATIONAL CONTROL IN 2014

A large part of the day-to-day operational work in the form of chartering and manning is purchased from related-party suppliers, primarily Stena Bulk, Stena Weco and Northern Marine Management (NMM). Stena Bulk and Stena Weco are responsible for chartering and operation of our ships, while NMM is responsible for manning, ship management and day-to-day maintenance.

From a control perspective, Concordia Maritime's main task is to monitor and evaluate whether the contracts entered into are performed as agreed.

There is close, virtually daily, contact with Stena Bulk, Stena Weco and NMM, and a formal report is made every quarter. At the end of each year, a larger-scale follow-up and evaluation of the collaboration is carried out.

Chartering and operations

The collaboration with Stena Bulk and Stena Weco with regard to chartering and operations is based on an agreement between the

companies which is followed up and evaluated annually. Read more about the agreement in Note 23.

Stena Bulk and Stena Weco are responsible for the day-to-day operation of the vessels, maintaining contact with customers, and acting as an intermediary in connection with different types of controls and inspections. Reporting is formalised and the most important elements are regular reports on income, the outcome of profit-sharing clauses and cost control.

Manning, management and regular maintenance

The collaboration with NMM encompasses services related to manning, management and regular maintenance. NMM is also responsible for contacts with the classification societies in the context of their inspections.

This collaboration is also followed up and evaluated on an annual basis. The evaluation includes monitoring of the budget and the fulfilment of defined goals.

Control and inspection of vessels

Shipping in general and tanker shipping in particular are associated with an extensive system of regulations. In addition to the owner's own inspections, several inspections are carried out annually by various stakeholders: customers, classification societies, port authorities and flag states. These inspections are largely similar to each other; the vessels undergo operational, technical, mechanical and safety checks. Some of the inspections are planned, while others are carried out without prior notice. Results are reported to the authorities concerned, the owner and, in some cases, also to the customer.

COMPREHENSIVE INSPECTIONS – EXTERNAL AND INTERNAL

Flag State Control

All ships must be registered in a specific nation. The owner of the ship undertakes thereby to comply with the laws and regulations laid down by the nation in question. Flag State Control ensures a ship complies with applicable laws and regulations.

Port State Control

Port State Control is the inspection of foreign ships calling at a nation's ports. The purpose is to check that the ships comply with requirements, that the crew has the right competence, and that international regulations (SOLAS, MARPOL and STCW) are adhered to.

Classification Society inspections

The Classification Society's inspections are conducted annually or following repairs/modifications. Additionally, a more comprehensive inspection is carried out every fifth year when the ship is dry-docked. Special emphasis is given to examining e.g. materials in the hull and machinery, maintenance procedures and quality level of the work done at the shipyard.

Vetting – the customer's own inspection

Vetting is carried out by the customer or inspectors designated by the customer. The owner invites the customer to carry out an inspection, which is normally done in connection with discharging. The inspections are very comprehensive. They are based on a standardised form and the results are shared between the oil companies via databases. In the event of more serious deficiencies, the customer can choose to put the

contract on hold until these have been corrected and new vetting has been carried out. The system allows oil companies to continuously check whether the vessels satisfy their internal criteria, without having to inspect the vessels themselves.

The owner's own inspections

NMM conducts regular scheduled, comprehensive inspections to check the conditions on board and the state of the vessel. These are documented in quarterly reports and a monthly report of vetting inspections on board Concordia Maritime's vessels is also compiled.

Concordia Maritime holds meetings with NMM every quarter, at which all the vessels in the fleet are reviewed. The meetings deal with everything from freight rates, operation and drydock to work in the area of health, safety and environment.

THE BOARD

Carl-Johan Hagman

Born 1966. Board member since 2012. Chairman. LL.M. CEO Stena Rederi AB. Responsible for Stena AB Group's shipping business.

Background Former CEO of Walleniusrederierna, Stockholm, Eukor Car Carriers, Seoul, Rederi AB Transatlantic, Skårhamn and Höegh Autoliners AS, Oslo.

Other assignments Board member of Höegh Autoliners AS and Gard P&I Ltd.

Special expertise Experience in shipping and as a maritime lawyer and naval officer. 20 years' experience of Asia.

Shares held in Concordia Maritime 0

Stefan Brocker

Born 1966. Board member since 2007. LL.B.

Background Partner and former Managing Partner, Mannheimer Swartling Advokatbyrå AB.

Other assignments Chairman of Mannheimer Swartling's Shipping Group, Board member of the European Maritime Lawyers Organisation, Honorary Consul of Greece. Board member of School of Business, Economics and Law, University of Gothenburg

Special expertise Shipping law. Has worked as a lawyer in shipping and offshore for almost 20 years.

Shares held in Concordia Maritime 0

Helena Levander

Born 1957. Board member since 2014. MBA

Background Founder and Chairman of Nordic Investor Services AB, a consultancy company in corporate governance.

Other assignments Board member Collector AB, Uniflex AB, Stampen AB, Hans Andersson Recycling AB and NeuroVive Pharmaceutical AB.

Special expertise Has extensive experience in the financial industry through leadership positions that include SEB, Nordea Asset Management, Odin Fonder and NeoNet. Since 2003 has served on a number of boards of publicly listed, state-owned and private companies.

Shares held in Concordia Maritime 10,000

Michael G:son Löw

Born 1951. Board member since 2012. MBA

Background Former President and CEO of Preem AB, and a number of senior positions at Conoco Inc. in the Nordic region and internationally.

Other assignments Board member of Preem AB, Boliden AB, Stena Bulk AB, Norstel AB, Sv. Näringsliv, Vice Chairman IKEM AB and Swed/Russ. Chamber of Commerce. Member of the Board the Royal Academy of Sciences, Chalmers Advisory Committee, Sv. EnergiEk. Förening and Network for Oil & Gas.

Special expertise Active in the oil industry for 38 years. Brings expertise in energy/refining /trading/shipping and financial issues.

Shares held in Concordia Maritime 0

Morten Chr. Mo

Born 1948. Board member since 2000. Certified economist BI (Oslo) and IMDE (PED), Lausanne.

Background Director/Chairman Quillfeldt Rönneberg & Co, Leif Höegh & Co AS, Hator Management AS, CEO Stemoco Shipping AS and Lorentzen & Stemoco AS.

Other assignments Board member of CellVision AS, Bass Pte Ltd. Malaysia, Hadeland Folkehøyskole, Landsbyen Brandu 2020 and Hadeland Maskin AS.

Special expertise Background as shipbroker, owner and partner of different shipping companies and active/investors in start-up companies.

Shares held in Concordia Maritime 0

Dan Sten Olsson

Born 1947. Board Member since 1984, former Chairman. MBA
